

Master of Science
Diagnostic Imaging
and residency

UNIVERSITY of WESTERN STATES
Integrating Health and Science

CHIROPRACTIC RADIOLOGISTS

serve in a consulting role to practitioners. Chiropractic radiologists possess extensive training and experience in neuromusculoskeletal imaging and general imaging of other areas of the body.

More information: www.acbr.org

"An amazing part of this residency is it never gets redundant - in any given day I may perform radiographic studies, shadow an interventional radiologist at a local hospital or imaging center, give a lecture or teach a lab, study my quarterly topic, hold student office hours or work on my thesis project."

-Jeff Holden, DC

MASTER of SCIENCE **MS** DIAGNOSTIC IMAGING

Imaging plays a vital role in patient management. Chiropractic radiologists are pivotal to ensuring good patient management by providing expert consultation on imaging studies routinely used in practice. Practitioners interested in becoming chiropractic radiologists are those that want to be the "doctor's doctor."

Completion of the University of Western States' Master of Science in diagnostic imaging and residency prepares individuals to sit for the Diplomate of the American Chiropractic Board of Radiology (DACBR), a rigorous and distinguishing diplomate.

The program is exemplar in teaching, learning, evaluation and scholarship and is distinguished as a caring, rewarding and enjoyable place to learn.

Discover new passions, set yourself apart in a growing field and develop a highly-specialized practice as a chiropractic radiologist.

THE PROGRAM:

- Highly selective and highly competitive admission process
- Three-year, paid residency program, graduates receive a Master of Science degree upon completion
- Accredited by the Northwest Commission on Colleges and Universities and the Council on Chiropractic Education

Connect with us:

"Working and training one-on-one with Dr. Beverly Harger and the rest of the radiology faculty has been an invaluable experience. The radiology residency has definitely trained me to be a better and more knowledgeable physician."

-Steven Taliaferro, DC

UNIVERSITY
OF WESTERN
STATES

About the **University of Western States**

A leader in the education of health care professionals, the University of Western States (UWS) provides a science-driven curriculum that delivers a solid foundation and competitive edge in preparing students for clinical practice. UWS is a regionally accredited, non-profit institution dedicated to improving the health of society through its educational programs, research and clinical services.

Founded in 1904, the university offers a doctor of chiropractic degree program; master's degrees in exercise and sports science, human nutrition and functional medicine, and diagnostic imaging; a massage therapy certification program; and accredited continuing education programs for licensed health care professionals.

UWS is a founding member of the Oregon Collaborative for Integrative Medicine, an organization that aims to advance integrative health care through education, research, patient care and advocacy. To learn more about the University of Western States and its academic programs, go to www.uws.edu.
